Department of Fiqh and its Principles

Deanship of Graduate Studies

“

About the Department:

To establish the department as a leading academic and research center in postgraduate studies in Fiqh and its principles, and as a beacon of knowledge contributing to enriching the Islamic library with original and peer-reviewed research, while graduating distinguished jurists and researchers capable of contributing to addressing contemporary issues in accordance with the objectives of Islamic Sharia.

The Mission:

Preparing researchers specialized in Fiqh and its principles, possessing a solid scientific methodology and the ability for disciplined deduction and ijtiḥād, through advanced postgraduate programs focused on the foundational study of Fiqh and Usul, and applying them to address contemporary issues and new cases, thereby contributing to serving the community and enhancing the religious reference.

Objectives:

The Graduate Program in Jurisprudence and its Fundamentals aims to achieve a comprehensive set of objectives, most notably:

1. Establishing the student's knowledge in jurisprudence and its principles by deepening their study of the sources of Islamic legislation, rules of deduction, and the schools of jurists, enabling them to understand the legal rulings and comprehend the differences among scholars and their evidences.
2. Developing specialized research skills through the preparation of rigorous scientific research that combines methodological grounding and critical analysis, addressing contemporary jurisprudential issues and current matters in light of the objectives of Sharia.
3. Preparing qualified scientific competencies capable of contributing to university teaching, issuing religious verdicts (fatwas), scientific research, and serving Sharia, judicial, and daʿwah institutions.
4. Enhancing the ability for disciplined ijtiḥād, and developing skills in weighing between jurisprudential opinions according to the principles of Usul al-Fiqh, while taking into account the reality and its variables.
5. Utilization of modern technologies in the service of Fiqh and its principles, through the use of jurisprudential databases, research software, and digital knowledge platforms in research and verification.
6. Linking jurisprudence to contemporary reality through the study of economic, medical, social, and legal issues, and providing Sharia-compliant solutions that consider the objectives of the Sharia and the requirements of the modern era.
7. Enhancing scientific and academic cooperation with specialized universities and research centers through the exchange of expertise and participation in scientific conferences and seminars, thereby contributing to the development of the program and the improvement of its outcomes.

Program Significance

The inauguration of the postgraduate program (Master's) in Fiqh and its Principles at Imam Bukhary University in the Republic of The Gambia represents a strategic step reflecting the university's orientation towards developing its academic system, enhancing its presence in the field of specialized Sharia studies, and responding to the requirements of higher education and the labor market needs in the fields of Fiqh and Islamic legislation.

The program is expected to attract a significant number of students wishing to specialize in Fiqh and its principles, and to acquire advanced scientific and methodological skills. This will contribute to elevating the academic standing of Imam Bukhary University, enhancing its scientific reputation at both regional and international levels, and supporting its institutional sustainability through high-quality scholarly outputs.

The importance of the program stems from the increasing need in Islamic societies—particularly in West Africa—for specialized scholarly cadres in Fiqh and its principles, who possess disciplined tools of *ijtihad*, comprehend the objectives of Sharia, and are capable of addressing contemporary issues and new cases in economic, medical, social, and legal fields. This contributes to achieving benefits and preventing harms, consolidating the approach of moderation and balance, and enhancing societal stability.

The program is also considered a natural extension of a comprehensive academic pathway provided by Imam Bukhary University, as it offers graduates of bachelor's programs in Sharia studies—particularly in Fiqh and its principles—the opportunity to pursue their postgraduate studies within the university. This enhances academic stability, elevates the level of scholarly qualification, and affirms the university's commitment to delivering progressive, quality education that aligns with accredited academic standards and sustainably meets the needs of society.

Additionally, the Master's program in Fiqh and its Principles contributes to meeting the needs of several vital sectors, as the employment opportunities available to its graduates are diverse. These include educational institutions and universities, Sharia and judicial bodies, fatwa departments, research centers, and *da'wah* and media institutions, alongside fields such as Sharia judiciary, arbitration, jurisprudential consultations, and work within civil society organizations concerned with Sharia awareness and the promotion of social harmony.

The program also opens avenues for employment in the field of teaching at schools and Islamic institutes, thereby contributing to the support of scientific and cultural development in Gambia, as well as in the African, Arab, and Islamic regions in general.

Employment Sectors Qualified for Graduates of the Doctoral Program in Fiqh and Its Fundamentals.

Graduates of the Master's program in Fiqh and its Principles at the College of Sharia, Imam Bukhary

University, are qualified to occupy specialized and distinctive positions that require advanced academic qualifications, analytical and deductive abilities, and advanced research skills. This qualification opens wide horizons for them in several sectors, most notably:

1- Educational and Academic Institutions (Universities and Colleges): Working as a faculty member or academic researcher in the departments of Fiqh and its Principles or Sharia, contributing to the teaching of Fiqh and Usul courses, supervising research, and developing curricula.

2- Specialized Research Centers and Scientific Publishing Houses: Working as a specialized researcher in jurisprudential and usul studies, a verifier of jurisprudential heritage, a scientific reviewer of Shariah publications, and participating in research projects related to contemporary issues and matters of Islamic jurisprudence.

3- Official religious institutions (Ministries of Religious Affairs, Fatwa Departments, Jurisprudential Councils, Senior Scholars' Bodies): working as a Sharia advisor, fatwa researcher, or consultant on contemporary jurisprudential issues. Contributing to the issuance of Sharia fatwas based on evidence, and serving as a member of Sharia committees specialized in issuing fatwas and studying new legal cases.

4- Judicial Authorities and Sharia Bodies: Working in Sharia courts, Sharia arbitration bodies, and the field of legal consultations of a jurisprudential nature (personal status, transactions).

5- Charitable, Relief, and Da'wah Institutions: Serving as a Shariah expert in charitable and relief projects, or as a Da'i and religious guide specializing in jurisprudential issues. Contributing to the foundation of charitable and relief work from a Shariah perspective, and providing training courses and awareness programs.

6- Islamic Banks and Financial Institutions: Working as a Shariah advisor and participating in issuing jurisprudential rulings related to Islamic financial transactions.

7- Religious Media Institutions and Knowledge Production: Working as a writer and researcher in contemporary jurisprudential issues, a Sharia analyst for media content, and a producer of specialized religious programs in Fiqh and its principles.

8. General Education and Sharia Institutes: Working as an academic or educational supervisor in educational institutions, and preparing and developing Sharia curricula.

The diversity of these entities reflects the significance of the Jurisprudence and its Fundamentals specialization in various fields of life, as well as the ability of the program graduates to contribute to achieving a balance between Sharia grounding and the requirements of contemporary reality.

Study Plan for the Doctoral Degree at Imam Bukhary University Jurisprudence and Its Fundamentals

(Thesis Track):

A doctoral student in Fiqh and its Fundamentals may enroll exclusively in the thesis track without undertaking coursework, within the framework of advanced research programs aimed at enabling researchers with sufficient academic qualifications to dedicate themselves to specialized scientific research, provided that the following conditions are met:

First: Admission Requirements for the Track:

1. Specialization Alignment:

The student's specialization at the doctoral level must be consistent with their specialization at the master's level, ensuring continuity of knowledge development and scientific depth in a precise and specific field.

2. Fulfillment of the Previous Academic Load:

The student must have successfully completed all courses in the master's program in the same specialization, with no less than (23) credit hours, and at an academic level that qualifies them to progress to the advanced research stage.

3. Approval of the Research Plan:

Submission of a comprehensive scientific research proposal characterized by originality, novelty, and methodological rigor, obtaining the approval of the Scientific Department Council, and its endorsement by the relevant academic authorities.

4. Research Capability:

The student shall demonstrate possession of advanced research skills, the ability to engage with sources and references, and the production of robust scientific knowledge in their field of specialization.

Second: Requirements for the Scientific Thesis:

5. Thesis Size:

The scientific thesis is required to be no less than (250) pages, equivalent to (80) credit hours, and not to exceed (350) pages. Exceeding this limit is permissible when necessitated by the scientific nature of the research, provided that approval is obtained from the academic supervisor and the head of the department.

The thesis must, under all circumstances, adhere to the academic standards approved by Imam Bukhary University in terms of solid scientific structure, precise methodology, and proper scholarly documentation.

6. Originality and Scientific Contribution:

The thesis should represent a qualitative contribution to knowledge in the field of specialization, addressing a scientific issue with depth, analysis, and critique, while ensuring originality and avoiding repetition.

7. Adherence to the Scientific Methodology:

Adherence to the rules of scientific research in terms of formulating the problem, constructing hypotheses, analyzing evidence, and documenting sources according to the approved systems.

Third: The time period for completing the scientific thesis:

The minimum duration allocated for preparing the thesis shall not be less than two years, and it shall not exceed five years from the date of thesis registration, in accordance with the regulations and rules governing postgraduate studies at Imam Bukhary University.

Extension is permissible in exceptional cases as determined by the competent authorities, based on the recommendation of the academic supervisor and the approval of the department council.

Learning Outcomes for the Doctoral Program in Jurisprudence and Its Fundamentals:

A graduate of the Doctoral Program in Jurisprudence and its Fundamentals at the College of Sharia, Imam Bukhary University, is expected to be capable of achieving the following outcomes:

a. Knowledge and Understanding:

a₁ - Comprehensive and in-depth mastery of the studies of Fiqh and its principles, the objectives of Sharia, and its contemporary schools and trends.

a₂ - Comprehension of advanced fundamental jurisprudential theories, and analysis of methods of deduction and weighing between the legal evidences.

a₃ - Precise mastery of contemporary jurisprudential issues and emerging cases, linking them to the overarching objectives of Sharia.

a₄ - Trace the historical development of the jurisprudential schools and analyze their methodologies.

b. Cognitive (Intellectual) Skills:

b₁ - Practicing disciplined jurisprudential ijtiḥād in accordance with the principles of Usul al-Fiqh and the objectives of Shariah.

b₂ - Critical in-depth analysis of contemporary jurisprudential issues, with the proposal of innovative solutions.

b₃ - Evaluating classical and contemporary jurisprudential and usul opinions, and preferring those that achieve the Shariah interest.

b₄ - Constructing applied jurisprudential models to address contemporary issues in various fields.

C. Professional and Practical Skills:

C₁ - Produce original scientific research that contributes to the development of knowledge in Fiqh and its principles.

C₂ - Employ advanced research methodologies in investigation, study, analysis, and critique.

C₃ - Academic supervision of research and university theses in the specialization.

C₄ - Providing specialized jurisprudential consultations to various institutions (judicial, financial, social).

C₅ - Employing modern technologies and scientific databases in jurisprudential research.

d. General Skills (Transferable):

d₁ - Leading research teams and managing scientific projects with high efficiency.

d₂ - Advanced Scientific Communication (Writing, Presentation, and Publication in Peer-Reviewed Journals).

d₃ - Contributing to scientific and intellectual dialogue at both local and international levels.

d₄ - Commitment to the ethics of scientific research, and the promotion of the values of integrity and objectivity.

The Academic Thesis and Its Requirements

First: Registration of the Thesis:

(1) Registration Conditions and Requirements:

The student is permitted to apply for registration of the thesis topic in the relevant department after fulfilling the following conditions:

- Fulfillment of admission requirements for the postgraduate program (PhD).
- Submission of a comprehensive research proposal including: the thesis title, its significance, objectives, methodology, and previous studies.
- Approval of the Scientific Department Council, and endorsement of the subject by the competent authorities in accordance with the governing regulations.

(2) Registration Procedures:

- The student submits the thesis registration application to the academic department, accompanied by the research proposal.
- The proposal is presented to the relevant scientific committee for review and evaluation.

- After the topic is approved, the thesis is officially registered and endorsed by the College Council and the relevant authorities.

Second: Academic Supervision:

(1) Regulations for Selecting the Academic Supervisor:

- The supervisor is selected from among the faculty members specialized in the field of the thesis.
- It is preferable that the supervisor holds the rank of Professor; however, the assistance of an Associate Professor is permissible in accordance with the approved regulations.
- It is permissible to appoint one or more co-supervisors when necessary, especially in interdisciplinary subjects or specialized fields.

(2) Responsibilities of the Academic Supervisor:

- Providing academic guidance to the student in selecting and formulating the research topic.
- Monitoring the student's progress in the stages of thesis preparation on a regular basis.
- Reviewing scientific chapters and providing necessary comments and corrections.
- Ensuring the student's adherence to the methodology and ethics of scientific research.
- Submitting periodic reports on the student's progress level to the relevant department.
- Recommendation for the thesis to be eligible for defense after fulfilling its academic requirements.

(3) Supervision and Follow-up Mechanisms:

- Conduct regular periodic meetings between the supervisor and the student to monitor the progress of the research.
- Submitting interim reports on work progress according to the approved templates.
- Continuous assessment of the student's research performance, with addressing any deficiencies.
- Adherence to the specified timeframe for completing the thesis in accordance with the governing regulations.

Third: Discussion of the Scientific Thesis:

(1) Formation of the Discussion Committee:

Based on the Graduate Studies Regulations, the thesis defense committee shall be formed by a decision of the Graduate Studies Deanship Council, upon the recommendation of the relevant Department and Faculty Councils.

(2) Executive Rules for the Formation of the Committee:

- The supervisor's report is presented to the relevant departmental council as a preliminary step for

approving the thesis's eligibility for defense and proposing the formation of the examination and evaluation committee.

- The Department Council is responsible for nominating the members of the discussion committee, and it may propose a reserve member if necessary.
- The academic supervisor may propose a member of the discussion committee, provided that this is subject to the approval of the department and faculty councils.
- In the event that the Graduate Studies Deanship Council deems it necessary to amend the proposed committee composition, coordination shall be made with the concerned faculty to approve the amendment.

(3) Procedures for Submitting and Evaluating the Thesis:

- Copies of the thesis shall be sent to the members of the discussion committee through an official letter from the head of the relevant department, within a period not exceeding one week from the date the department is notified of the committee's approval.
- Each member of the discussion committee is obligated to submit a detailed scientific report on the thesis in accordance with the approved template.
- The maximum duration for the thesis examination shall not exceed:
 - Two months for master's theses.
 - Three months for doctoral dissertations.
- This shall be effective from the date of receipt of the copy.
- In the event that a committee member delays in submitting their report within the specified period, the Department Council – after being notified – may propose an alternative member to complete the evaluation procedures.

(4) Requirements for Progression to the Discussion:

- Successful fulfillment of all academic program requirements.
- Obtaining the scientific supervisor's approval on the thesis's eligibility for discussion.
- Approval of the Department and Faculty Council for the validity of the thesis.
- Submission of the required copies of the thesis in accordance with the approved regulations.

(5) Procedures for Discussion and Approval of the Thesis:

- The discussion session shall be held in the presence of the discussion committee and the supervisor (or their representative if necessary).
- The student presents a summary of their thesis, including the objectives, methodology, and results.

- The committee members provide their academic feedback, which is then discussed with the student in a scholarly manner.

- At the conclusion of the discussion, the committee issues its decision by selecting one of the following options:

A. The degree without modifications.

B. The license with specific amendments applied.

D. Postponement of the discussion to address substantial remarks.

C. Failure to pass.

(6) Criteria for Evaluating the Scientific Thesis:

The discussion committee relies on a set of criteria to evaluate the thesis, the most prominent of which are:

- The originality of the topic, its modernity, and its contribution to the specialization.

- Scientific methodological soundness and accuracy of documentation.

- Scientific analysis, critique, and the ability to deduce.

- Organization of the thesis and its scientific sequence.

- Language Proficiency and Scientific Writing Skills.

- The extent to which the research objectives and the achieved scientific contribution have been realized.

Organizational Note: All procedures for the discussion of scientific theses are subject to the approved regulations and executive rules at Imam Bukhary University.

Academic Staff of the Department of Jurisprudence and Its Fundamentals

Academic Rank	General Major	Specialization	Academic Position	Special Requirements and Skills	Required Number		
					Male	Female	Total
Professor	Jurisprudence and Its Fundamentals	Jurisprudence and Its Fundamentals	Head of Department / Professor of Graduate Studies	General supervision of the postgraduate programs in the department, teaching advanced methodological courses (Fiqh, Usul al-Fiqh, Jurisprudential Rules, and Maqasid al-Shariah), supervising doctoral and master's theses, chairing examination committees, and directing the department's research trajectory.	1	0	1

Associate Professor	Jurisprudence and Its Fundamentals	Jurisprudence and Its Fundamentals	Deputy Head of Department / Professor of Graduate Studies	Academic coordination of postgraduate programs, teaching courses (Fiqh and Usul, and Jurisprudential Theories), supervising master's and doctoral theses, and participating in examination committees and scientific seminars.	1	0	1
Professor / Associate Professor	Jurisprudence and Its Fundamentals	General Jurisprudence	Faculty Member (Postgraduate Studies)	Teaching courses (Jurisprudence of Worship, Financial Transactions, Family Jurisprudence, and Criminal Jurisprudence), supervising academic theses that address the derivation of jurisprudential rulings.	1	1	2
Associate Professor / Assistant Professor	Jurisprudence and Its Fundamentals	Principles of Islamic Jurisprudence	Faculty Member (Postgraduate Studies)	Teaching courses (Usul al-Fiqh - evidences, indications, ijtihad and taqlid - objectives of Sharia, and jurisprudential maxims), supervising master's theses, and training postgraduate students in skills of deduction and deriving branches from advanced principles.	2	1	3
Associate Professor / Assistant Professor	Jurisprudence and Its Fundamentals	Comparative Jurisprudence and Contemporary Legal Issues	Faculty Member (Postgraduate Studies)	Teaching courses on Comparative Jurisprudence (studying contentious issues among the schools of thought, jurisprudence of contemporary emergent issues including medical and economic cases), supervising academic theses concerned with the authentication of manuscript jurisprudential heritage, and training students in research methodology on newly arisen issues.	1	1	2

Important Notes for Graduate Programs:

- 1. Teaching and Supervisory Load:** The teaching load for postgraduate faculty members shall be reduced to enable them to dedicate themselves to supervising theses (Master's and Doctoral) and conducting scientific research, in accordance with the regulations of the Deanship of Graduate Studies.
- 2. Supervision Requirements:** Supervisors of doctoral dissertations must hold the rank of «Professor» or «Associate Professor,» whereas «Assistant Professors» may supervise master's theses or participate in doctoral supervision under specific regulations.
- 3. Recruitment:** The department focuses on attracting talents who have a substantial scientific output published in peer-reviewed scientific journals or accredited Arab journals, and who possess prior experience in supervision and examination.

Learning Resources for the Doctoral Program in Fiqh and Its Fundamentals

To achieve the utmost educational and research benefits for the students of the Doctoral Program in Fiqh and its Fundamentals, the program at Imam Bukhary University relies on an integrated and diverse system of learning resources. These resources aim to provide students with solid jurisprudential and fundamental knowledge, as well as to develop skills in research, analysis, and ijtihad concerning new issues, contemporary developments, and current matters. These resources are distributed as follows:

1. Printed Books and References:

Available Books in the Central Library of the University: It includes a wide collection of the principal books of Islamic jurisprudence from various schools of thought, books on the principles of jurisprudence, jurisprudential rules, and the objectives of Shariah, in addition to modern references and specialized studies on contemporary jurisprudential issues.

Specialized Libraries: Utilizing faculty members' libraries and public libraries specialized in the sciences of jurisprudence, fundamentals, and Islamic studies.

2. Electronic Resources and Databases:

Electronic resources available in the databases of the digital library at Imam Bukhary University: Electronic resources available in the databases of the digital library at Imam Bukhary University: provide access to thousands of books and peer-reviewed scientific journals in the fields of jurisprudence and its fundamentals, through the university's subscriptions to specialized scientific databases.

Peer-Reviewed Scientific Journals: Reviewing the latest research and studies in the fields of jurisprudence and usul (principles), through specialized jurisprudential journals and academic databases.

3. Interactive and Educational Resources:

- **Lecture Notes and Visual Presentations:** Any lecture notes or visual presentations (PowerPoint Presentations) uploaded by faculty members on the electronic learning system of Imam Bukhary University, which include lecture summaries, mind maps, interactive questions, and enrichment materials.

- **Recorded Lectures:** Visual recordings of academic lectures, enabling students to review issues of Fiqh, study Usul, and understand the objectives of Sharia.

- **Discussion Forums:** Interactive platforms for discussing jurisprudential issues, analyzing the reasons for differences and methods of preference, and exchanging scholarly opinions under specialized academic supervision.

4. Specialized Websites:

- **Reliable Academic Websites:** Websites of major legitimate scientific institutions, reputable fatwa centers, and jurisprudential councils that provide fatwas, research, and specialized articles in jurisprudence and its principles.
- **Personal websites of scholars and researchers:** Utilizing the scientific content provided by prominent scholars and specialized researchers in jurisprudence and its fundamentals through their personal websites or their trusted educational channels.
- **Academic Research Gateways:** For accessing theses and peer-reviewed research in the field of Fiqh and its principles.

5. Internally Produced Educational Materials:

- **Authored and Translated Course Materials:** Books and publications produced by the faculty members of the department, whether original authorship or translation of important references, which reflect the academic and research expertise of the department and directly meet the scientific needs of the students.
- **Applied Studies and Exercises:** Educational materials specifically designed to train students in applying jurisprudential and fundamental principles to real-life issues and contemporary cases.

This integrated system of learning resources contributes to establishing a solid scientific foundation for students of Fiqh and its Principles, enabling them to acquire skills in examining evidence, critical analysis, scientific evaluation, discussion, and weighing arguments. This qualification prepares them to engage with legislative sources in study, research, and teaching with competence and proficiency.

Admission and Student Support

The Doctoral Program in Jurisprudence and its Fundamentals at the Deanship of Graduate Studies places great emphasis on ensuring the recruitment of the best student talents and providing a supportive academic environment that enables them to achieve research and scientific excellence. This is accomplished through clear admission criteria and comprehensive support programs that meet the qualitative needs of graduate students.

1. Program Admission Requirements:

Applicants to the Doctoral Program in Jurisprudence and its Fundamentals must fulfill the general admission requirements for postgraduate studies at Imam Bukhary University, in addition to the following specific conditions:

- **Academic Qualification:** Must hold a Master's degree in Jurisprudence and its Principles, or a Master's degree in Sharia and Islamic Studies (General Specialization), or an equivalent qualification

from a recognized university.

- The thesis track for the doctoral program requires that the student has successfully completed all coursework at the master's level in the same specialization, totaling no less than (23) credit hours, with an academic standing that qualifies them to advance to the stage of advanced research.

- **Admission Tests:** Passing the written and oral admission examinations conducted by the department, which aim to assess specialized knowledge in the sciences of Fiqh and Usul, the ability to conduct scientific research, and linguistic skills (Arabic and English).

- **Curriculum Vitae:** Submission of a detailed curriculum vitae outlining the student's academic and research experiences.

- **Personal Interview:** Passing the personal interview conducted by the department to assess the student's readiness for postgraduate studies and their enthusiasm for scientific research in Fiqh and Usul.

- **Personal Documents:** Provide two recent passport-sized photographs, and a copy of the birth certificate/passport/national identity card.

- **Written Commitment:** A written pledge to adhere to the standards, rules, and general values promoted by Imam Bukhary University both within and outside the university, particularly the ethics of scientific research.

- **Registration Fees:** Payment of the prescribed registration fees at Ecobank, and submission of the payment receipt to Imam Bukhary University for verification.

2. Orientation and Preparation Programs for New Students:

Comprehensive orientation and induction programs are provided for new master's students to ensure their smooth integration into the academic and research environment of the Deanship of Graduate Studies, including:

1. **Reception Ceremony:** Organizing a reception ceremony for new students at the beginning of each semester to welcome them and introduce them to Imam Bukhary University and the department.

2. **Introductory Workshops:** Organizing specialized workshops to familiarize students with the regulations and systems of postgraduate studies, the doctoral program curricula, research methodologies, and the use of specialized sources and references in Fiqh and its principles.

3. **Orientation Tours:** Organizing orientation tours of the Central Library, Digital Library, study halls, language laboratories (if available), and the e-learning system.

4. **Student Handbook:** Providing each student with a comprehensive guide covering academic and administrative activities, regulations, and policies.

3. Guidance Services (Academic, Research, Professional, Psychological, Social):

The program provides specialized advisory services for doctoral students, with a focus on advanced research and academic aspects.

1. **Academic and Research Supervision:** Assigning an academic supervisor to each doctoral student from the commencement of the program until graduation, to provide advice and guidance in course selection, determining the thesis topic, research methodology, and the writing of the scholarly thesis.
2. **Office Hours:** Allocation of regular office hours for faculty members to provide consultation and assistance to students regarding their field of specialization, as well as personal and social aspects that may affect their academic progression.
3. **Academic Advising Unit:** The presence of an academic advising unit within the college and department that guides students and provides
4. **Satisfaction Surveys:** Distribution and dissemination of periodic questionnaires to measure students' satisfaction with academic and research advising services, and utilizing the results to develop continuous improvement plans.
5. **Career Planning:** Providing advice and guidance to students regarding the career opportunities available for PhD holders in Fiqh and its Fundamentals, and how to prepare for the academic and research job market.

4. Special Support:

The program is committed to providing special support for students with diverse needs to ensure equal opportunities and achieve excellence.

1. Supporting Students Facing Academic and Research Difficulties:

- Identifying students who are struggling in their research or academic track through supervisors' reports and course results.
- Identifying the causes of difficulties (such as challenges in research methodology, scientific writing, or time management) through individual meetings with supervisors and advisors.
- Providing individual or group support programs, such as intensive workshops in scientific research methodology, academic writing, or time management skills.
- Guiding students to participate in specialized training courses to achieve the required levels and skills, such as advanced e-learning courses.

2. Support for Gifted and Outstanding Students:

- Identifying outstanding and gifted students in the field of Fiqh and its fundamentals, and encouraging them to participate in scientific conferences and seminars.

- Providing them with advanced research opportunities and linking them to the research projects of faculty members.
- Honoring them and commending their scientific and research achievements.
- Providing them with opportunities for leadership and pioneering roles in the scientific and cultural activities of the department and Imam Bukhary University.

3. Support for Persons with Disabilities:

- Providing dedicated and appropriate facilities for students with physical disabilities, such as designated parking spaces, equipped restrooms, and easily accessible pathways.
- Allocating appropriate spaces for them in lecture halls and libraries.
- Providing the necessary academic and technical support to ensure they receive a comprehensive educational and research experience.

Quality Assurance of the PhD Program in Jurisprudence and its Fundamentals

The PhD program in Fiqh and its Fundamentals is committed to applying the highest standards of academic and administrative quality to ensure the excellence of its educational and research outcomes at the postgraduate level. This is achieved through an integrated quality assurance system encompassing all aspects of the program, aiming at the continuous improvement of performance, meeting the accreditation requirements for doctoral programs, and fulfilling the mission and strategic objectives of Imam Bukhary University in serving the Prophetic Sunnah and its sciences.

1. Quality Assurance System in the Program:

The program adopts an internal quality assurance system that aligns with the national and international standards for higher education and postgraduate programs. This system includes clear mechanisms for quality planning, implementation, monitoring, evaluation, and continuous improvement, which are carried out through:

- **Defining Quality Standards:** Establishing clear standards for the quality of advanced teaching, research curricula, scientific research (particularly theses), academic supervision, student services directed towards postgraduate students, and research facilities.
- **Periodic Review:** Conducting periodic reviews of all program components by specialized internal and external committees in Fiqh, Usul, and postgraduate studies.
- **Feedback:** Collecting and analyzing feedback from doctoral students, supervising faculty members, alumni, external examination committees, and research entities, to be utilized in improvement and development processes.
- **Improvement Plans:** Developing detailed action plans to address identified weaknesses and

enhance strengths through evaluation processes, with a focus on the development of research skills and supervision.

2. Procedures for Monitoring the Quality of Program Courses Taught by Other Academic Departments:

To ensure consistency and quality in the courses taught by other departments (such as Advanced Arabic for Research, Research Methodologies, or certain related Sharia courses), the following procedures are implemented in coordination with the heads of the respective departments:

- **Systematic Coordination:** Holding periodic meetings with department heads and relevant faculty members to review course descriptions, content, teaching methods, and assessment approaches directed at postgraduate students, to ensure their alignment with the objectives of the PhD program in Jurisprudence and its Fundamentals.
- **Report Exchange:** Exchange of academic performance reports of doctoral students in these courses, as well as course evaluation reports by students and faculty members.
- **Joint Review:** Conduct joint reviews of the achieved learning outcomes in these courses and provide recommendations for their improvement when necessary, with a focus on supporting the research skills of doctoral students.

3. Procedures Followed to Ensure Equivalence Between the Program's Main Campus and Other Branches (If Any)

In the event of the existence of other branches of the program or parallel tracks (such as a track for male students and a track for female students within a single main campus), the department ensures equivalence in the quality of education and the resources available. Since the current program focuses on a single main campus, this point does not directly apply to the existence of independent branches. However, equivalence between male and female students at the main campus is ensured through:

- **Curriculum Unification:** The application of the same study plans and educational curricula for all doctoral students.
- **Equal Resources:** Providing the same educational materials, research facilities, and advisory services to all students without discrimination.
- **Evaluation Criteria:** Application of standardized and fair assessment criteria for all students, including the evaluation of academic theses.

4. Program Plan for Measuring Learning Outcomes at the Program Level:

The program adopts an approved plan for measuring learning outcomes at the course level and subsequently at the overall program level. This plan aims to ensure that doctoral students acquire the advanced knowledge, skills, and competencies specified in the program objectives, particularly in the field of scientific research in Fiqh and its principles. Learning outcomes are measured through:

- **Diverse Assessment Tools:** Utilization of various assessment tools such as advanced tests, research projects, seminar presentations, evaluation of thesis proposals, assessment of final theses, and oral interviews.
- **Results Analysis:** The outcomes of learning measurement are analyzed periodically, and the reports are discussed in the Department of Fiqh and Usul Council as well as the Graduate Studies Deanery Council.
- **Improvement Decisions:** Based on the results of the analysis and discussions, necessary decisions are made to enhance the quality of courses, develop teaching and supervision methods, and optimally utilize the expertise of faculty members to strengthen the outcomes of scientific research.

5. Program Quality Evaluation:

The quality of the Doctoral Program in Jurisprudence and its Fundamentals is periodically and regularly evaluated to ensure continuous improvement, in accordance with the performance indicators outlined in the following table:

Performance Indicators for the Doctoral Program in Fiqh and Its Fundamentals

m	Code	Performance Indicator	Target Audience	Measurement Methods	Measurement Timing
1	KPI-01	Percentage of Achievement of the Program's Operational Plan Objectives	75%	Committee Reports	End of the Academic Year
2	KPI-02	Student Satisfaction with the Quality of Jurisprudence and Its Fundamentals Courses	85%	Questionnaires	End of the semester
3	KPI-03	Student Satisfaction with the Competence of Faculty Members in the Major	85%	Questionnaires	End of the semester
4	KPI-04	Program Learning Outcomes (PLOs) Achievement Rate	75%	Measurement Reports	End of the semester
5	KPI-05	Course Learning Outcomes (CLOs) Achievement Rate	80%	Course Reports	End of the semester
6	KPI-06	Graduation Rate in the Program	60%	Academic Records	End of the Academic Year
7	KPI-07	Graduate Student Retention Rate	90%	Statistics	End of the semester
8	KPI-08	Pass Rate in Jurisprudence and Its Fundamentals Courses	85%	Academic Records	End of the semester

9	KPI-09	Graduate Employment Rate in Their Field of Specialization	40%	Graduate Surveys	Six months after graduation
10	KPI-10	The percentage of graduates participating in the preparation of scientific .research after graduation	%20	Graduate Surveys	Six months after graduation
11	KPI-11	Graduate Satisfaction with the Program	80%	Questionnaires	Annually
12	KPI-12	The number of scientific research publications annually in the field of Fiqh .and its fundamentals	≥ 3 Research Papers	Quality Reports	Annually
13	KPI-13	Average Scientific Production of Faculty Members in the Specialty	≥ 1 Research/ Member	Research Reports	Annually
14	KPI-14	The percentage of utilization of jurisprudential and fundamental legal databases and digital technologies in research	70%	Course Reports	End of semester
15	KPI-15	Number of Approved Theses in the Specialization	≥ 5 annually	Postgraduate Records	Annually
16	KPI-16	Number of participations in scientific conferences on Jurisprudence and Usul (Principles of Islamic Jurisprudence)	≥ 2 annually	Department Reports	Annually
17	KPI-17	Student Satisfaction Rate with Academic Supervision of Theses	85%	Questionnaires	Annually
